

We all deserve to be financially abundant...it is in human our nature.

It is natural for you to want to become financially independent by doing exactly what you want. All we have to do is change our beliefs about money.

So let's begin by relaxing ourselves and going within, find a place to lay down in a comfortable position where no one will bother you and you won't be distracted. Follow my voice as I guide you into a deeply relaxing state.

Begin by slowly blinking your eyes, and with each number I say, blink once. (pause for 3 seconds in between each number) 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, and 0. Allow your eyes to gently close, and when you do this you feel a wave of relaxation sweep over you. As you step off the last step, you step into white sand.

Its warm under your feet and fluffy.

Just feel the sensations of your feet on the sand.

Now look up and all you see is more sand in front of you, but you can hear the ocean.

Walk towards the sound of the ocean. As you're walking you can feel the sun on your skin.

Perhaps you can feel a light breeze as well.

You notice the smell of the salty air.

And as you're looking around you see the ocean peek over the sand dune.

You're walking towards the ocean now and you notice the sand under your feet gets firmer, because it's saturated with sea water.

And you get to the shore where the ocean meets the sand, and you see little waves coming up and down....up and down...

And as the waves come and go, you see some things in the sand like shells, pieces of seaweed...your own footprints...and you see a little piece of driftwood that's the perfect size for writing in the sand with.

Pick up this driftwood, now draw your name into the sand where it's moist. Write out each letter, noticing the sound that it makes as you scratch it though the sand.

Good.

Now step back and look at your name. As you see your beautiful name that's carried you though your whole life, you notice a little wave coming closer...

This wave catches part of your name and washes it away as it goes back into the ocean.

And then another wave comes and washes your way even more...

And another comes and washes it away...

And another, until all you can see is ripples in the sand where your name used to be.

That's good.

Now continue walking along your beach , noticing the surroundings.

What kind of sounds do you hear?

Can you hear seabirds flying over? Or the wind gently blowing? Can you feel the warm sun on your skin?

How does the sand feel under your feet again? It's nice, right...

Maybe you can even smell the smells of the ocean..

Just be at your beach today.

(Pause)

Now as you've walked you've learned a lot about how beautiful this beach is and you're ready for a little rest. So find a comfortable place to sit, wherever you like on the beach. A chair could be waiting for you...just the kind you like.

So go ahead and take a seat. Take a seat and look out into the ocean. Watch the horizon and how the ocean meets the sky. This is the most beautiful scene you've ever witnessed.

(pause)

As you gaze along the big blue, you listen very closely to what I have to tell you because it is very important to your overall wellbeing....

We all deserve to be financially abundant....

You want to be financially independent by doing exactly what you want. All you have to do is change your beliefs about money.

Think about some common beliefs about money that people have....like how much money do we think we deserve, or don't deserve..... or how hard do we have to work for it?

It's true that we have to put action towards our goals....and if those actions are backed by excitement and happiness, then achieving our goals doesn't have to be hard at all...

and moving towards our dreams could be as easy as flowing down a river.....

You want to earn a living online from home and from wherever you are... That is a good reason to be excited and happy....

But first we need to make this goal a part of us....something that we truly believe....and know.... something we know is already happening right now as you listen to these words.....

Even though you might not even know where to start, or have never earned an income at home

and online before.....The most important part is not to plan our future based on our past.

Your past can't decide for you what you will or won't do because all it knows is your past....

Taking action with a new mindset and self-image is what keeps you on track.

Implementing positive suggestions while you are in a deeply relaxed creativity state is a powerful way to reprogram our subconscious mind, and don't forget that this entire recording has positive subliminal affirmations playing, already implementing powerful success affirmations that go past your conscious mind.

Begin to focus on your right palm....Relax your right palm and hand....relax each finger, one by one.....relax your right wrist.....your forearm.....your elbow....relax your right bicep and entire upper arms.....relax your right shoulder and down to your right hip, relaxing it too.....you relax your right leg all the way down to your right ankle and foot.....each toe on your right foot slowly lets go completely.....bring your awareness up now to the right side of your neck, relaxing it.....allow any sounds that you hear to feel like tiny waves of relaxation going into your right ear.....the entire right side of your head fully relaxes.....Your right brain relaxes, allowing creativity to be fully accessible.....Your entire right side is fully calm and relaxed.....Sleep is easy for you when you feel this relaxed.....

[Pause for 5 seconds]

Good....

[Pause for 5 seconds]

Good.....

We are going to go through one more focus scan on the front of our bodies, starting at your forehead.....many of us hold tension in our foreheads....so allow your forehead to just melt away, allowing wrinkles to flatten.....this also relaxes the frontal cortex of the brain.....the place of creative formulation.....relax your eyes now and notice they are making tiny movements....these movements are called rapid eye movement which allow you to relax, even more.....and notice your nose and how the air passes through, allow this flow to relax you.....relax your mouth and your tongue.....Relax your throat.....going down relaxing your entire lungs.....relax your heart.....relax your ribs and stomach.....allow off of your vital organs to relax.....your liver....pancreas....spleen.....kidneys.... your entire digestive system relaxes.....your reproductive organs completely relax.....the tops of your legs relax all the way down the tops of your feet.

[Pause for 5 seconds]

Good.....

Every single part of your body is so relaxed right now.

Allow yourself to mentally go down deeper now to the most naturally relaxed state for you, opening yourself up to positive learning.
